DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "36" has been used to designate both the limit switch and the press. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "16". A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: "or" in line 5 of page 1 should read --of--, on page 2, line 5, "there" should read --those--, and in line 9, the phrase "as disclosed in claim 1" is not a proper disclosure of the invention.

Appropriate correction is required.

Claim Objections

4. Claims 1-5 are objected to because of the following informalities: "the" in lines 2 and 4 of claim 1 should be deleted, in line 6, "the", second occurrence, should read --a--,

Art Unit: 3726

in line 9, "inserts" should read --insert--; in claim 2, --a-- should be inserted before "manually" in line 5, in order to properly recite the claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claim 3 recites the limitation "the central portion of the vertical web" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

8. Claims 1, 2 and 5 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

9. Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach a machine for the automatic production of inverted T-shaped structural components comprising a station for applying an insert to the ends

Art Unit: 3726

of the T-shaped structural components wherein the insert on site by a press provided upstream of the station for applying the insert, these in combination with the rest of the limitations in the claim.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
